

Which UK energy company won a bid for a new battery storage facility?

Winning bidders included a 49MW battery storage facility -- one of the biggest of its kind in the world -- to be built by Centrica, the UK energy group, at a former coal and gas-fired power station at Roosecote near Barrow in Cumbria. Centrica also won backing for a new 370MW combined cycle gas turbine at King's Lynn in Norfolk.

How many MW of pre-qualified capacity won the 2026/27 auction?

Of the ~46MW of pre-qualified capacity eligible for the 2026/27 auction, 46,031.692MW won contracts, representing 93.42%. Significantly, the number of battery storage assets continued to grow.

What's happening with solar & storage projects?

A double-header of large-scale solar and storage project news from Arizona, US, with PPAs between Recurrent Energy and utility APS, and developer Avantis selling a co-located project to D. E. Shaw. The latest Innovation Tender in Germany has concluded, with 32 solar-plus-storage projects totalling 408MW awarded contracts.

How much will BEIS invest in Smart Energy Systems Innovation?

Across government, Innovate UK, Research Councils, and BEIS expect to invest around £265 million in smart systems research, development, and demonstration. As part of this commitment, within the BEIS Energy Innovation Programme, BEIS expects to invest up to £70 million in the smart energy systems innovation theme.

What is National Grid's biggest uptake of battery technology?

The 500 megawatts of new storage projects procured in the auction -- equivalent to a medium-sized thermal power station -- is by far the biggest uptake of battery technology so far by National Grid and highlights the rapid change under way in Britain's energy sector.

Can a storage facility absorb surplus electricity?

Several storage facilities -- which absorb surplus electricity at times of excess generation and release it when needed -- won contracts with National Grid, the UK power system operator, in its latest auction of subsidies for back-up capacity.

Of this year's 143 winning battery storage units, over 90% have contracts with a 15 year duration. Renewables also surged, with 76.85MW of onshore wind, offshore wind and ...

Battery storage plants will be given UK government subsidies to provide electricity when supplies run low in a breakthrough for a technology considered crucial to the ...
