Our lithium battery storage cabinets have you covered on all fronts. Why Buy Lithium Battery Storage From Us? Just the Right Temperature. Lithium-ion batteries need to be kept under moderate temperatures due to their sensitivity to extreme heat and cold. High temperatures will cause the batteries to discharge increasingly.

For larger projects up to 4 battery racks (69 kWh each) can be added to the system, giving a total combined capacity of 276 kWh. The system can be monitored and controlled using the energy management system (EMS) on the GivEnergy platform with additional monitoring points available to integrate to give more specific data e.g. renewable energy generation on site.

CellBlock Battery Storage Cabinets are a superior solution for the safe storage of lithium-ion batteries and devices containing them. The dangers of improperly storing lithium-ion batteries have been well-documented over the past decade. Without the right separation, climate, and safety measures in place, storing batte
