Rated Voltage : 60V DC Rated Current : Power:30A MAX; Signal:2A MAX ... the JL-FB-Z84225AG 2+6 pin Battery Connector offers high reliability, durability, and performance in a wide range of operating conditions, making it suitable for various electrical applications where secure and efficient connections are essential.

For instance, connectors like Anderson Powerpole or XT60 are ideal for high-current applications, while JST connectors may suffice for lower-current devices. Compatibility is another key factor. Ensure that the chosen connector fits the battery terminals and any other devices in the system.

The QS10 are heavy duty connectors with built in anti-spark resistor to avoid sparks on the initial connection. Also they have a 4 pin gold connector for option connections like sensors and or signal wires.Features:Rated Voltage: DC ...
