

Are electric car batteries covered by insurance?

Replacing an electric car battery can cost thousands of pounds, so knowing whether you're covered is important. The answer will vary depending on the provider. Most policies should pay out if the battery is stolen, accidentally damaged or damaged by fire (specialist electric insurance policies almost certainly will).

Why does electric car insurance cost more?

There are several reasons why electric car insurance can cost more than petrol or diesel vehicles: Higher-value vehicles- Electric cars cost more than conventional vehicles to buy. The more valuable the car, the higher the cost of cover. Higher repair costs - Generally, electric cars are more costly to repair.

How much does electric car insurance cost in the UK?

The cost of comprehensive insurance for popular electric cars in the UK starts from around £3,400 to over £11,000 per year, depending largely on the make, model and trim level of the car. (Age and driving history are also major factors; our sample driver was in their mid-30s with a good record and no claims for 5 years).

Will car insurance pay out if a battery fails?

A car insurance policy typically won't pay out if the battery fails, just as it wouldn't if you need new tyres or if the clutch goes. But your policy should cover the battery for accidental damage, fire damage and theft. It's worth checking because batteries are incredibly expensive to replace.

How much does EV car insurance cost in the UK?

The average cost of EV car insurance is around £654 for the most popular electric car models in the UK, according to our recent analysis. But premiums are highly variable from one car to the next, with quotes ranging from around £3,400 to over £11,000 per year for our test driver.

Is there a fixed price for car insurance?

There's no fixed price for car insurance. Your quote will take into account a number of factors. Things like the cost of your car, repair expenses, battery replacement, safety features, driving habits, and location all affect how much you pay.
