Where is the fuse box located on a Honda Accord?

The fuse box is behind the cover on the left side (Left-Hand Drive), on the right side (Right-Hand Drive) of the steering column. The engine compartment fuse box has high-current fuses that protect your vehicle's main electrical systems from overloads. Your vehicle has a pre-fuse box in the engine compartment attached to the positive battery post.

What is an engine compartment fuse box?

The engine compartment fuse box has high-current fuses that protect your vehicle's main electrical systems from overloads. Your vehicle has a pre-fuse box in the engine compartment attached to the positive battery post. This box contains several high current fuses.

Is there a fuse in the battery compartment?

There is a fusible link or inline fuse in the battery compartment- pretty sure.

Where should a battery fuse be placed?

Recommended practice is to place the fuse near the positive terminal of the battery, so the whole circuit will be dead if the fuse blows. (Of course, if the positive terminal is considered Ground, place the fuse near the negative terminal.) What if the battery was reversed on accident, do you think the other fuse would provide protection?

What is a high current fuses box?

Your vehicle has a pre-fuse box in the engine compartment attached to the positive battery post. This box contains several high current fuses. Your vehicle has a High Current Fuse Box in the engine compartment below the engine compartment fuse box. This box contains several high current fuses.
