

Do I need a solar panel to join octopus flux?

You need solar panels to be eligible for Octopus Flux, but they don't need to have been installed by us. If you're in the process of getting them installed, we can still start your switch. You'll also need an Export MPAN to join Octopus Flux, if you don't have one yet we can apply for one for you. Don't have solar yet but want an estimate?

What is intelligent octopus flux?

Intelligent Octopus Flux is one of the best tariffs if you have installed a solar system and battery. It allows you to profit from your storage and excess energy while helping you reduce pressure on the grid. Intelligent Octopus Flux optimises how you export and import energy to help you save money and get the best returns.

Which octopus flux is better?

All of Octopus Flux's export rates are lower than Intelligent Octopus Flux's, so when you do sell your excess solar electricity, you'll make less money from it. Octopus Flux is an excellent option for anyone who isn't able to get a compatible battery but, overall, Intelligent Octopus Flux is the better export tariff.

How much electricity does octopus flux use?

* Based on a household using 3,500kWh of electricity per year, with a 4.4kWp solar panel system and a 5.2kWh battery. How does Octopus Flux work? Once you've switched to Octopus Flux, you'll earn money for every kWh you export to the grid.

How does octopus flux work?

How does it work? Octopus Flux is an import and export tariff optimised to give you the best rates for consuming and selling your energy and support the grid during peak periods. Super cheap rates between 02:00 - 05:00 every day, when you can top up your battery with any extra energy you may need.

How do I switch to intelligent octopus flux?

To be eligible for Intelligent Octopus Flux, you must have solar panels and a compatible battery. You'll also need a smart meter, as well as a relatively recent model of iPhone or Android phone. And as mentioned above, you must already be on an Octopus import tariff and an Octopus export tariff before you can switch to Intelligent Octopus Flux.
