

The Solo series all-in-one solar LED street luminaire features a slim, fully integrated design suitable for various applications and locations, especially where grid connection is limited. Powered by solar energy, it includes its own power source, charge controller, batteries, and LED board, all in a single ultra-thin unit, making it easy to install, maintain, and resistant to vandalism.

These LED street lights incorporate cutting-edge performance, build quality, and design in all in a solar luminaire. And they come along with lighting column packages.
