

How much does it cost to repair the new energy battery box cover

Can you replace a broken energy meter box?

If your old meter box is completely battered and broken, a quick fix like a new latch or new meter box door isn't going to be enough to protect your energy meter against the elements. Yet, when it comes to inset energy meters, the replacement process is expensive, difficult and sometimes even impossible.

Is a meter box replacement worth the cost?

But if you need to replace your meter box due to damage, then yes, it's absolutely worth the cost. In fact, it's key to making sure that your electricity meter is properly protected. That said, we'd always recommend checking whether your meter box can be repaired before you commit to a full replacement.

What should I do if my electricity meter box gets damaged?

All this means that if your electricity meter box or gas meter box gets damaged, it is your responsibility to remedy it. This might mean finding smaller replacement parts such as hinges or repair kits, or even fitting a new overbox to protect the whole area.

Who is responsible for repairing a broken meter box?

This meant the responsibility to replace or repair a broken meter box lay with the electricity or gas supplier. However, deregulation has now changed this, and it's down to the homeowner to maintain the boxes that protect their energy meters, whether that is a gas meter box or an electricity meter box.

Should you replace a gas meter with an overbox?

Yet, when it comes to inset energy meters, the replacement process is expensive, difficult and sometimes even impossible. An overbox is a much quicker and easier alternative. It fits neatly over the top of your old gas meter box or electric meter box, so you don't need to remove the old one.

What is an overbox or meter box cover?

An overbox or meter box cover is a meter box designed to fit quickly and easily over the top of your existing box so you don't have to remove the old one. If your old meter box is completely battered and broken, a quick fix like a new latch or new meter box door isn't going to be enough to protect your energy meter against the elements.
