

Can used lithium batteries be imported into Indonesia?

On December 23, 2020, the "Regulation of the Ministry of Commerce No. 100 of 2020 on the provisions for the import of used lithium batteries as raw materials for the lithium battery industry" was enacted in Indonesia with the aim of supporting and promoting the development of the domestic electric vehicle industry.

What is SNI certification for batteries in Indonesia?

In Indonesia, the safety and quality of batteries are clearly stated in SNI IEC 60086-1:2015, which is based on the international IEC 60086-1 standard, which regulates the capacity, performance, and overall construction of batteries. So, are you interested in finding out more about SNI certification for batteries in Indonesia?

Why is Indonesia a leader in the lithium battery industry?

In 2024, Indonesia stands at the forefront of the rapidly evolving lithium battery industry, catalyzed by its significant reserves of raw materials essential for battery production and a growing focus on renewable energy sources. As Southeast Asia's largest economy, Indonesia has strategically positioned itself as a

Is Indonesia a good place to buy EV batteries?

Indonesia is home to one of the largest nickel reserves in the world, a crucial component in the production of lithium-ion batteries used in electric vehicles. The country's abundance of this vital mineral provides a significant competitive advantage in the EV battery market.

Should Indonesia invest in the electric battery industry?

Indonesia's ambitious targets in the electric battery industry offer a prime opportunity for strategic investments and partnerships. Foreign stakeholders are advised to adopt a comprehensive approach that includes regulatory compliance, sustainable practices, and market differentiation, to stay ahead of the curve.

Can used lithium batteries be imported?

Used lithium batteries may only be imported by a company that possesses a valid business basic number as a manufacturer-importer number (API-P). However, in order to import them, the company needs to obtain a "Used Lithium Battery Manufacturer and Importer Certificate." This certification will serve as a document for import customs clearance.

PHYLION YIFANG NEW ENERGY (hereinafter referred to as "PYNE"), was held grandly. This marks an important step for Phylion in Southeast Asia, particularly Indonesia, towards achieving localized lithium battery supply, laying a solid foundation for its global strategy of fully covering 1-15 degree lithium battery scenarios.

UL Standards. Underwriters Laboratories (UL) is a testing and standard-developing company that publishes product safety standards, including those for lithium batteries and products containing lithium batteries. They
