

In this study, 17.34% of the non-industrial buildings and 100% of the industrial buildings have flat roofs, where the mutual-shading effects should be considered, by setting appropriate PV panel tilt angles and inter-row spacing distances.

This study presents results with economic metrics similar to that of other studies in China and other countries such as Chile and Bangladesh [18,29,40,41].

And Sunrise is looking forward to providing not only ground-mounted solar panels but also solar panels for roofs. We have various types of solar panels. ... can easily meet the needs of ...
