

Who owns the battery storage facility in Japan?

Project financing has been arranged by MUFG Bank representing the first battery storage project they have arranged finance for in Japan. Under the offtake agreement, Eku Energy will own the BESS while Tokyo Gas will own 100% of its operating rights for 20 years, with Eku Energy responsible for the ongoing maintenance of the facility.

Where is the Hirohara battery energy storage system located?

Thank you. The Hirohara Battery Energy Storage System (BESS) is located in Oaza Hirohara, Miyazaki City, Miyazaki Prefecture. The 30MW/120MWh battery is Eku's first in Japan, and the company has agreed a 20-year offtake agreement for the project with Tokyo Gas.

Why do Japanese businesses need battery storage?

Businesses see battery storage as a complement to their renewable energy strategy, and a strong opportunity to improve their bottom line while accelerating their path to decarbonization. Enel X is a global leader in this space, and is a partner of choice for Japanese businesses.

What is Gurn energy doing in Japan?

This includes the announced 500MW, 2GWh BESS capacity, which is currently under development. Targeted percentage of renewable energy in Japan's energy mix by 2030 Japan's target for energy storage capacity by 2030 Amount that Gurn Energy has committed to investing in Japan over six years so far
