

# Lithium-ion battery industry enterprise ranking

What are the top 10 power lithium battery manufacturers in the world?

Data show that the world's top 10 Power Lithium battery manufacturers, China's CATL, BYD Company, Panasonic, Guoxuan, Wanxiang total of five large lithium battery companies. CATL's sales in last year were 32.5 GWH and its market share rose to 27.87%, firmly ranking first in the world.

What is the global lithium-ion battery market?

The global lithium-ion battery market reached US\$51.0 Billion in 2023. The market is primarily driven by the rising product applications across numerous industries due to the enhanced energy density, lightweight, environment-friendly nature, long operating life, and high-power capacity of lithium-ion batteries.

Which EV battery manufacturer has the largest market share?

According to SME Research, CATL is the world's largest EV battery manufacturer, with 37.7% of the market share. Plus, it is the only battery supplier with a market share of over 30%. CATL has 6 R&D facilities, five in China and one in Germany. In 2023, they spent about \$2.59 billion in R&D, an 18.35% increase from the previous year.

What are the top lithium-ion battery companies focusing on?

As per the analysis by IMARC Group, the top lithium-ion battery companies are focusing on developing and designing technologically advanced product variants. They are also making heavy investments in research and development (R&D) activities to introduce miniaturized lithium-ion batteries with improved efficiency.

Who makes the most EV batteries in the world?

China is the undisputed leader in battery manufacturing, dominating the global production of essential battery materials such as lithium, cobalt, and nickel. Chinese companies supply 80% of the world's battery cells and control nearly 60% of the EV battery market. 13. Amperex Technology Limited (ATL) 12. Envision AESC 11. Gotion High-tech 10.

Who sells power lithium batteries in the world?

China's top five companies account for 45.1% of global sales of power lithium batteries, nearly half of global sales. China's power lithium battery companies have become global market leaders. The world's top three companies are China, Japan and South Korea.

Fourth, lithium-ion battery enterprises should strive to improve scale efficiency by encouraging industrial agglomeration or enterprise mergers. They should also establish a lithium-ion battery industry innovation alliance and strengthen technological innovation cooperation to narrow the innovation efficiency gap within the industry.

# Lithium-ion battery industry enterprise ranking

It is worth examining whether the IRA will have an impact on the China's lithium-ion battery sector and whether it can provide the United States with a cost advantage in the new energy ...

Arcadium Lithium: A New, Fully Integrated Lithium Major Finalized in early January 2024, the merger of Livent and Allkem is the largest such event in the lithium industry's history. The combined entity, Arcadium Lithium ("Arcadium"), joins Albemarle, Ganfeng, and Tianqi as lithium producers with offerings across all

Although the global battery industry was forecast to experience the largest growth in Europe by 2030, China's lithium-ion battery capacity was projected to be five times larger than in the U.S ...

China's lithium battery brand-under the Aviation Industry Corporation of China, Chengfei Integrated Holdings is specialized in the research, production, sales and market application development of lithium-ion power batteries, battery ...

A lithium-ion battery is similar to a typical storage battery, ... Lithium Ion Battery Manufacturer Ranking  
\*Including some distributors, etc. Ranking as of February 2025 ... Might Industry Co., Ltd. Compact and lightweight lithium-ion battery welding machine LBW-170G 190+ people viewing ...

Explore the Leading 16 Lithium ion Battery Manufacturer of 2025! Discover Their Pivotal Role in The Growing Energy Storage Market and Electrification Surge.

Guoxuan Hi-Tech in Top 30 power battery manufacturers in China is the first national enterprise in China's power battery industry to enter the capital market. ... has more ...

Ranking of benchmark companies and is expected to grow at a CAGR of 17.7% from 2024 to 2030. Vehicle electrification is projected to attract a significant volume of lithium-ion batteries, ...

CATL is a leading enterprise in China's energy storage industry, and has a layout in new energy storage fields such as lithium-ion batteries and sodium-ion batteries, and it ...

Now in its fourth edition, the Global Lithium-Ion Battery Supply Chain Ranking considers 46 individual metrics to track the supply chain potential across five equally weighted categories: raw materials, battery manufacturing, ...
