

# Mandatory provisions for solar power generation

Should guidance on solar PV be included in the National Policy Statement?

The solar industry very much welcomes the addition of guidance on solar PV to the National Policy Statement for renewable energy infrastructure. However, there are several provisions which could be strengthened, which we have outlined below.

Do you need planning permission to install solar panels?

Current rules that require businesses to apply for planning permission if solar panels will generate more than one megawatt of electricity will also be scrapped, meaning organisations will be able to install more solar panels on rooftops without the delay and cost of applying for planning permission.

How can the government support the installation of solar panels?

The government has several schemes to support the installation of solar panels. This includes the Energy Company Obligation (ECO), and the Warm Homes: Local Grant and the Warm Homes: Social Funding.

What is the private members' bill on new homes (solar generation)?

This Library briefing provides an overview of the bill and key areas of debate. The Private Members' Bill on New Homes (Solar Generation), sponsored by Max Wilkinson (Lib Dem), will have its second reading on 17 January 2025. The government has set a mission to make Britain a clean energy superpower.

What is a solar photovoltaic Bill?

A Bill to require the installation of solar photovoltaic generation equipment on new homes; to set minimum standards for compliance with that requirement; and for connected purposes.

Should a new home require solar PV panels?

The 2023/24 consultation on the detailed specification for the FHS sought views on whether to require solar photovoltaic (PV) panels for new homes. Solar PV generation turns the sun's energy into electricity. Option 1 would have required solar PV panels covering the equivalent of 40% of a new home's ground floor area.

The Haryana government today said it has decided to implement an energy conservation action plan under which solar power generation will be made mandatory in different categories of buildings or areas with a suitable enforcement mechanism.
