

Is Bess a safe place to buy lithium ion batteries?

Naturally,not everyone is sold on BESS. Opponents of these facilities have raised concerns over the presence of highly flammable substances,such as from lithium-ion batteries,and possible air and groundwater contamination.

Are battery energy storage systems "green-adjacent" on Long Island?

On Long Island, communities from Hempstead to Southold are witnessing the introduction of a previously unfamiliar form of Green-adjacent technology in the form of Battery Energy Storage Systems, or "BESS". I refer to BESS facilities as "Green-adjacent" because, unlike wind and solar farms, they do not produce electricity of their own.

Are battery energy storage systems the new 'green-adjacent' technology?

But as the push to expand Green Energy production grows,so too will the prevalence of the technologies needed to support the industry. On Long Island,communities from Hempstead to Southold are witnessing the introduction of a previously unfamiliar form of Green-adjacent technology in the form of Battery Energy Storage Systems,or "BESS".

Safety tips for storing devices with lithium ion batteries at home 02:30. BETHPAGE, N.Y. -- They're part of our everyday lives. Lithium ion batteries enable us to recharge everything from our ...

Despite prior presentations by researchers regarding the review of spent lithium-ion battery (LIB) recycling, emphasizing the necessity for (i) pretreatment processes to enhance metal recovery efficiency (Yu et al., 2023, Kim et al., 2021), (ii) cost-effective recycling technologies (Miao et al., 2022), (iii) analysis of LIB leachate in landfills (Winslow et al., 2018), and (iv) government ...

OLD BETHPAGE, N.Y. (PIX11) -- Lithium-ion batteries are to blame for dozens of recent fires in New York City and Long Island. On Tuesday, Nassau County fire officials shared lifesaving tips to...

At least three lithium-ion battery storage plants have caught fire in New York State since the start of 2023, including one in East Hampton that burned for 30 hours in May 2023 and required more ...

Make sure smoke detectors, fire alarms, and CO (carbon monoxide) detectors are working. The batteries should be checked regularly. The NFPA (National Fire Prevention Association) ...

(LONG ISLAND, NEW YORK - June 15, 2022) -Nassau County Executive Blakeman, Nassau County Fire Marshal's Office, the Fire Service Academy and the Nassau County Firefighters Museum will gather on June 21 st at 11AM to discuss and demonstrate the proper use of lithium ion batteries. Alongside local elected officials and firefighters they will ...

Organized by the National Fire Sprinkler Association (NFSA), the event focused on the growing threat posed by lithium-ion battery fires. The keynote speaker, Lt. John Cassidy of the New York City Fire Department (FDNY), delivered an eye-opening lecture that underscored the urgent need for increased awareness and better safety measures.

Lithium ion batteries are under investigation in last weekend's Hell's Kitchen fire. The FDNY cites 60 battery-related fires in the first four months of the year, double that of last ...

Basic Guidelines for Factory High Hazard Storage Occupancy Lithium-ion Battery Safety for Consumers

Since last year in Nassau County, there have been seven lithium-ion fires resulting in at least one death and seven injuries, according to Chief Fire Marshal Michael Uttaro. Suffolk County ...

Alongside local elected officials and firefighters they will deliver important lifesaving fire safety tips. With the increase in devices operated with rechargeable lithium ion ...
