

New Energy Blade Battery Warranty Period

Does BYD offer a warranty?

*BYD extends the warranty on its entire range of new-energy vehicles to 6 years or 150,000 km, offering maximum confidence and peace of mind to customers throughout Europe. *In addition to the new warranty period, the BYD range will benefit from an 8-year or 200,000 km warranty on its revolutionary Blade battery.

How long does a blade battery last?

Blade Battery has a long battery life with over 5,000 charge and discharge cycles. With a range of EV and PHEV to choose from, whether that's fully electric or hybrid options, new energy vehicles give drivers the option to reduce their carbon footprint in a way that suits their lifestyle.

How long do EV batteries last?

These batteries are designed to last longer than the typical lifecycle of the car. Based on Geely's tests, the new Aegis short blade EV battery technology is able to support 3,500 cycles which is equivalent to driving for 1,000,000 km with minimal impact to battery range. That's equivalent to driving 20,000 km per year for 50 years!

What is BYD blade battery?

What is Blade Battery? BYD has been a pioneering name in the battery industry for more than 29 years. The driving force of each of our electric cars is the innovative BYD Blade Battery. Recognised as one of the world's safest EV batteries, our battery has passed rigorous safety tests and is designed to maximise strength, range and life cycle.

When do EV batteries need to be replaced?

There's a huge misconception that EV batteries need to be replaced after 5 years or when the warranty ends. While the cost of a new battery could be anywhere between 40-60% of the total cost of a brand new EV, the reality is that the high voltage battery is probably the last thing you'll need to replace.

Why should you choose a blade battery?

The space utilisation of the Blade Battery has been increased by over 50% compared with the traditional battery packs, which provides enhanced energy density and delivers longer range. Blade Battery has a long battery life with over 5,000 charge and discharge cycles.
