

Precision Control Energy Lithium Battery 12V

What are the advantages of 12V lithium batteries?

What are the advantages of 12V Lithium Batteries ? Lithium iron phosphate (lifepo4) batteries can produce 5000cycles @90% depth of discharge. whilst still retaining up to 80% of their original capacity thereafter. compare this to 200-400 cycles of conventional 12v lead-acid deep cycle batteries.

How many cycles can a 12V lithium leisure battery discharge?

Compared to only 200-500 cycles of conventional 12v lead-acid deep cycle batteries. A 12v lithium leisure battery can discharge 100% using all its stored energy. Whereas if you discharge conventional deep cycle lead acid batteries below 50% it causes permanent cell damage, resulting in reduced cycle capacity.

What is lithium pro energy?

Lithium Pro Energy use traceable QR coded, grade A, 'matched' EVE Lithium iron phosphate (lifepo4) cells in our batteries. Producing upwards 4000-8000cycles @ a 80% depth of discharge DOD. Compared to only 200-500 cycles of conventional 12v lead-acid deep cycle batteries. A 12v lithium leisure battery can discharge 100% using all its stored energy.

Who makes prismatic lithiumpro batteries?

Otherwise your insurers may refuse to cover you or payout in any claim. The newer Prismatic celled battery assemblies such as the ones we use in all of LithiumPro batteries are manufactured by EVE. Their cell Quality and Grade are traceable to the date and place of manufacture using a QR code system engraved into each cell.

Can lithium LiFePO4 batteries be recycled?

All lithium lifepo4 batteries can be recycled and do not contain any dangerous gases or sulphuric acid. With a cell cycle capacity of upwards of 4000 -8000 cycles at a 80% depth of discharge means if used daily and cycled to 80% of its capacity it will provide up to 11-21 years of continuous power.

What is a lithiumpro energy battery?

Our lithiumpro energy batteries are designed with familiar conventional (sae) solid brass terminal posts. along with the traditional mounting rails at the base to safely secure the battery its tray. Using the latest Bluetooth 5 technology on your IOS or Android device you can pair to a SMARTIQ SERIES battery for real time data monitoring.

Lithium iron phosphate (lifepo4) batteries can produce 5000cycles @ 90% depth of discharge. whilst still retaining up to 80% of their original capacity thereafter. compare this to 200-400 ...

?For Trolling Motors?The LiTime 12V 100Ah battery is intended for energy storage, not starting, and has a maximum discharge current of 1 C. Suggested Use: The 12V 100Ah battery is ...

Precision Control Energy Lithium Battery 12V

Precision Lithium BatteriesPR110-DC+HT | 12 Volt 110 Amp Hour Electrical Specifications Nominal Voltage 12.8 V Nominal Capacity 110 Ah Capacity @ 25A 264 min Resistance ≤ 30 mO @ 50% SOC Efficiency 99% Self Discharge $\leq 3\%$...

We stand behind our batteries; all of our batteries go through a rigorous quality control process. You can be assured that when you purchase a Precision battery you are getting high quality and high performance power ...

Discover the WEIZE 12V 100Ah 1280Wh LiFePO4 Lithium Battery with Self Heating for RV, solar, marine, and trolling motors. ... WEIZE cannot be held responsible or liable for ...

HQST LiFePO4 Battery 100ah Lithium Battery, 12V Lithium Iron Phosphate Battery Deep Cycle Marine Battery, 10 Year Lifetime with Low & High Temp Protection for RV, Trolling Motor, Boat-3 Pack 12V Lithium Battery, 100ah Lifepo4 Battery Rechargeable Battery with Built-in 100A BMS Board, 15000+ Deep Cycles, Higher Energy Density, for RVs, Van, ...

The Ultramax 12v 100Ah LiFePO4 battery is an ultra-light, high-performance battery that comes complete with a fast lithium battery charger and a full 2-year warranty. This lithium phosphate battery makes for an excellent high-end replacement for heavy users of Sealed lead acid batteries. This battery replaces the 12V 100Ah SLA batteries.

Precision Lithium BatteriesPR110-DC+HT | 12 Volt 110 Amp Hour Electrical Specifications Nominal Voltage 12.8 V Nominal Capacity 110 Ah Capacity @ ...

Precision Power's 24V lithium deep cycle marine battery set with 150 amp hours (Ah) of capacity allows you to run lighter in weight while freeing up space in your battery bay with compact Group 31 cases. Bluetooth monitoring via the Precision Power iOS or Android app to monitor State of Charge, Voltage, Capacity, Status, Current, Power, Cycles, Temperature, and overall ...

At Lithium Pro Energy, we take immense pride in our engineering excellence and are eager to showcase it. ... A 12v lithium leisure battery can discharge 100% using all its stored energy. ...

We go way beyond transportation. Precision Batteries offers dependable batteries and power systems for industries from manufacturing to healthcare. Whatever power your business needs, look to Precision Batteries to deliver. At Precision ...
