

What are battery-powered puzzle lights?

Battery-powered puzzle lights are small lamps or light strips that come in various forms and offer flexibility in terms of placement. They are easily moved around and suitable for on-the-go puzzling or areas without easy access to electricity.

Do all 3D puzzles come with battery operated LED lights?

Every 3D puzzle comes with battery operated LED lights to give your Tiny Treehouse and plants a warm and magical glow. With this optional accessory, you'll never have to worry about running out of batteries again! These lights have a USB plug instead of a battery compartment, so you can plug it into a USB port to light up your treehouse.

What is a Puzzle Light?

Puzzle Lights are interlocking quadrilateral pieces that can be assembled in a variety of ways. When you purchase our kit online, it comes with 30 pieces and a 12 foot light cord that fits a standard LED bulb.

Why should you buy a puzzle lamp?

Great for puzzle fans who want to be able to bring their light source incredibly close to the table, this lamp is highly and easily adjustable. The sleek look is great in any home and the adjustable lighting and fast response of the lamp make it a wonderful option. The swing arm styled neck is easy to adjust and makes directing the light simple.

What are LED puzzle panels?

LED puzzle panels are slim panels infused with LED bulbs that provide consistent light to the surface they cover. They are a modern option for lighting up puzzles and are known for their energy efficiency and long lifespan. LED puzzle panels are a sleek and modern option for lighting up your puzzles.

How do I choose the Best Lighting for a puzzle room?

To choose the best lighting for a puzzle room, consider adjustable overhead lights. These fixtures, mounted above your workspace, provide an even distribution of light across the puzzle area with adjustable arms.
