What is the Best Lead acid car battery?

Bosch S4: Best lead acid car battery Price when reviewed: \$73 | Check price at Amazon Pretty much irrespective of size and type, the Bosch S4 is enormously popular among owners, scoring upwards of 4.5 stars across Amazon and Euro Car Parts.

Are lead acid batteries better than AGM batteries?

Lead acid batteries are an older technology--you don't have to refill them with distilled water anymore--while AGMs are modern and fit in vehicles with more advanced electrical systems. You can swap an AGM battery into a car that came with lead acid, but not vice versa. Lead acid batteries cost less, but they won't hold a charge as long as an AGM.

How many starts can a lead acid battery make?

You can expect to get around 20,000 starts from a lead acid battery, but they're not suitable for cars fitted with fuel-saving start-stop systems. What is an EFB battery?

Do lead-acid batteries cost more?

But some top-rated lead-acid batteries cost less than many of their competitors, says Frank Spinelli, who oversees testing of car batteries at Consumer Reports. "Price doesn't necessarily mean better performance," Spinelli says.
