

Where can I buy a lithium battery in the UK?

That's where Fogstar comes in - we're the UK's 'go-to' for all things lithium batteries. We've got a huge range of high-quality, affordable lithium batteries to suit your every need, from everyday essentials like 18650 doorbell battery kits to advanced power solutions for your leisure vehicle or solar energy system.

Which lithium batteries are available?

Welcome to the source for Lithium batteries in a range of sizes - 14350, 14500, 16650, 18350, 18500, 18650, 20700, 21700, 26650 - as well as LiFePO4 cells. Our selection includes protected or non-protected cells for a variety of applications, from torches and flashlights to e-bikes, e-scooters, home solar battery storage, power tools, and beyond.

Will a lead acid battery damage a lithium iron phosphate battery?

Please note: if a lead acid battery is taken below 50% DoD this will severely damage the battery. This does not affect lithium iron phosphate batteries in anyway. At Eco Tree Lithium we develop tailored battery solutions for each market sector.

Who is British lithium?

British Lithium was the first company to make a significant lithium discovery in the UK and has since received more than £5m in grants from the UK government. British Lithium plans to develop its project based in the St Austell area of Cornwall after encountering clay lithium deposits in a 2019 drill campaign.

What is green lithium doing in Teesside?

Green Lithium is establishing Europe's first merchant lithium refinery in Teesside. The Green Lithium plant will be close to Port of Tyne, enabling them to supply lithium to Europe's growing battery manufacturing industries. Green Lithium will secure unrefined lithium and refine it into a product for sale to battery makers and EV companies.

Who sells Ultramax batteries?

We sell commercial and industrial batteries for brands like Panasonic, Varta, PowerSonic, Duracell, Fuji Energy and UltraMax. Battery Masters is the retail wing of Baruch Enterprises and is the largest reseller of UltraMax electronics range of products. UltraMax is the largest manufacturer of Lithium Phosphate batteries in the UK.
