

Does pack & send deliver lithium batteries?

At PACK & SEND we can provide you with a complete packing and delivery service for lithium battery-powered equipment within the constraints of international regulations but be aware that this is a specialist and costly service and not appropriate for domestic lithium batteries not contained in their equipment.

How should lithium batteries be packaged?

When preparing shipments containing lithium batteries, it is important to ensure the batteries are not in any way defective, damaged, or have the potential to produce a dangerous evolution of heat, fire or short circuit. When packaging lithium batteries for shipment, strong rigid outer packaging must be used.

How many lithium batteries can I send in a package?

You may only send a maximum of 2 lithium batteries (or 4 lithium cells) in one package. You must take all available precautions to stop the device overheating. Turn off the device and seal the on/off switch with tape, to stop it turning on accidentally. Do not ship lithium batteries near to metal.

Can I send lithium-ion batteries within the UK?

When exposed to high temperatures, lithium-ion batteries have been known to overheat and even explode. For this reason, we have some restrictions when sending lithium-ion batteries through our network. You can send lithium-ion batteries within the UK, as long as the battery is fitted within the device.

Can I post lithium batteries?

Here's what they say about posting lithium batteries. You cannot send lithium batteries on their own through domestic or international post. You can send lithium batteries in the UK or international post only when they're contained in a device (except in their Business Response, Freepost, Packetpost and Packetsort services).

Can You Send lithium batteries by air?

IATA is actually quite adamant about not allowing anyone to send lithium batteries by air. There is a catch, though: this restriction only applies to lithium metal batteries by themselves, i.e. not placed inside or next to a device they are meant to power.

Custom Lithium Battery Pack Manufacturer Professional custom lithium-ion battery pack manufacturer in China with over 15 years of experience in design, R&D, manufacturing. Custom voltage ...
