2014 NEC allows weep holes in the box as long as the hole is ¼ in. or smaller. There is no limit on the number of holes or location where they are drilled but the holes must be "approved". According to Article 100, "approved" means acceptable to ...

Voltaic ETFE Solar Panel: 2 Watt Panel; Drill hole in 2X pre-marked locations and connect to bracket using ETFE Panel Screw and Washer Set. Hardware: U-Bolt compatibility for vertical pole: 0.75-2" [16mm-51mm] (will support 1/2" pipe) ... The bracket is a straightforward way to mount their small solar panels. It is robust and I expect will hold ...

Generally solar panels will produce significant usable power for about four hours a day. You will be lucky to get 75% of panel rated Watts pointed at the average Sun angle with clear sky between 10am and 2pm. To charge 38Wh in two days you would need 19Wh a day. $19/4/0.75=6.3$ panel Watts. That's pretty small. I would just go for a 20W panel, or ...
