

What is the VAT rate for solar installations?

Previously, the VAT rate for solar installations was either 5% or 20%, depending on a couple of factors. That means the VAT rate cut could save you hundreds or even thousands of pounds.

Are solar panels tax deductible in the UK?

According to the UK government's list of Energy Saving Measures (ESMs), most solar photovoltaic (PV) panels installed on residential properties in Scotland, England and Wales (plus Northern Ireland, as of 1 May 2023) are exempt from VAT, meaning there's no VAT included in the purchase and installation costs.

Are solar panels VAT free?

Installations of solar panels and batteries on residential properties in England, Northern Ireland, Scotland, and Wales are exempt from VAT, meaning there's no VAT included in the purchase and installation costs. Previously, the VAT rate for solar installations was either 5% or 20%, depending on a couple of factors.

Do solar batteries have a 0% VAT rate?

If you're buying a standalone solar battery, you'll also benefit from the 0% VAT rate. In February 2024, the government added storage batteries to the list of green products that enjoy a 0% VAT rate - and it makes no difference whether you get solar panels too or not.

What is the tax rate for solar panels?

However, to support certain industry sectors, such as hospitality and tourism, a lower rate of 5% is applied. For several years, the Renewable Energy Sector has also benefited from this reduced tax rate. Although helpful in numerous ways, many households pay an extra cost when purchasing energy-efficient equipment such as solar panels.

What is 0% VAT on solar panels?

The 0% VAT rate applies to all solar panel installations on residential properties regardless of the company you choose. This means that you won't have to worry about paying extra VAT on your solar panels, making them more affordable for homeowners like you.
