

Budget 2021 proposed to temporarily reduce corporate income tax rates by one-half for qualifying zero-emission technology manufacturers, as follows: 7.5%, where income would otherwise be taxed at the 15% general corporate rate. 4.5%, where that income would otherwise be taxed at the 9% small business tax rate

Corporate Income Tax Incentives. Under the corporate income tax (CIT) regulations, a business operating in the renewable energy, clean energy, and waste-to-energy sector can enjoy preferential tax rates and tax holidays if it qualifies for the incentive investment sector or encouraged investment location conditions.

Preferential Tax Rates

There are two tax credits available for businesses and other entities like nonprofits and local and tribal governments that purchase solar energy systems (see the Homeowner's Guide to the Federal Tax Credit for Solar Photovoltaics² for information for individuals):
