## **Solar home appliances in the next 5 years**

In the last 30 years, significant progress has been made in improving access to electricity, which has increased dramatically since 1970: from 49% in 1970 to 59% in 1990, 73% in 2000, 81% in 2010 and 90% in 2019 (IEA, 2002, IEA, 2004, IEA, 2012, IEA, 2022a). However, approximately 770 million people still lack access to electricity as of 2022 (IEA, 2022b).

There are many reasons to consider adding a battery to your home solar energy system: Backup during outages: Installing solar panels alone does not keep your lights on during a blackout. So, for many homeowners, ...
