The Best Way to Remove Snow From Solar Panels, Awnings, Aircraft, Vehicles and Roofs Prevents ICE DAMS - THE SNOW PRO & ROOF BRUM! Our Soft Snow Removal Roof Rake tools are non-abrasive and specifically designed to not damage the surfaces you are using them on.

Can a snow rake remove snow from solar panels?

A snow rake is an effective tool for removing snow from solar panels. If you have solar panels and winters are not snowy, a snow rake is an excellent tool to have in your garage. When choosing a rake for solar panels, you should pay attention not only to their type and features, but also to the quality of materials from which the product is made.

How do you remove snow from solar panels?

The best way to remove snow from solar panels is simply with a snow removal rake. The easiest, safest option for most homeowners, are solar panel snow rakes. These feature a soft, rubbery rake attached to a long telescoping pole that helps you easily access roof-top panels safely from the ground.

Do solar panels need snow removal?

If you have solar panels installed on your roof, snow removal during the winter months is very important. Snow accumulation can reduce the performance of solar panels and even damage them over time. A snow rake is an effective tool for removing snow from solar panels.
