

Solar Insurance is an excellent tool to protect one's solar power plant be it residential rooftop, commercial OR industrial rooftop, or Ground mounted megawatt-scale power project. It aids in securing the future in the form of insurance and provides coverage from any man-made unforeseen or natural calamities.

Once a solar power plant is up and running, operational all-risk insurance provides cover for physical damage or loss that affects the plant, while business interruption insurance helps to replace lost income if the project is unable to go ahead on a temporary basis due to the aforementioned physical damage or loss.
