

Ukrainian Independent Energy Storage Project Tender Announcement

What is the new call for tenders under Ukraine energy support fund?

New call for tenders under the Ukraine Energy Support Fund procurement now open! The procurement of the equipment necessary to conduct emergency repairs of the Ukrainian energy system continues.

What does DTEK's new energy storage project mean for Ukraine?

The new project aims to strengthen Ukraine's energy security and support the transition to a greener energy system. DTEK Group aims to commission the new storage systems by September 2025. Once operational, these energy storage facilities will provide ancillary services to Ukraine's Transmission System Operator UkrEnergo.

What does Ukraine's energy support fund mean for energy companies?

Earlier in January, the Ministry of Energy of Ukraine approved support requests by 30 energy companies under the Ukraine Energy Support Fund for the procurement of essential energy equipment at an estimated value of over EUR 107 million. The Ministry's decision marks the starting point for the procurement procedure.

What is the submission deadline for energy contracts in Ukraine?

Given the urgency, the submission deadline for offers is 20 February. Tetra Tech ES, Inc., acts as procurement agent for the Ukraine Ministry of Energy and the Energy Community Secretariat. Tetra Tech selects the supplier and negotiates the terms and conditions of the contracts between vendors and Ukrainian energy companies.

Will DTEK build a 200MW battery energy storage system in Ukraine?

DTEK unveils EUR140m plan for 200MW battery energy storage systems in Ukraine. (Credit: DTEK) DTEK Group, a private investor in Ukraine's energy sector, has announced a EUR140m investment plan to construct a series of battery energy storage systems (BESS) in the country with a combined capacity of 200MW.

What ancillary services will Ukraine's transmission system operator UkrEnergo provide?

Once operational, these energy storage facilities will provide ancillary services to Ukraine's Transmission System Operator UkrEnergo. The services will include automatic frequency restoration reserves, which DTEK Group secured the rights to offer following a competitive auction held on 22 August 2024, alongside other industry participants.
