

To promote the clean energy utilization, electric vehicles powered by battery have been rapidly developed [1]. Lithium-ion battery has become the most widely utilized dynamic storage system for electric vehicles because of its efficient charging and discharging, and long operating life [2]. The high temperature and the non-uniformity both may reduce the stability ...

**Safety Tips for Hot Weather.** To keep your ebike battery safe and functioning well in hot weather, follow these tips: **Charge in Cool Areas:** Always charge your battery in a shaded or cool place.; **Avoid Direct Sunlight:** Don't leave your battery in direct sunlight for extended periods.; **Let It Cool:** If you've just ridden your ebike, allow the battery to cool down ...
