

What is a luceco solar brick Pir wall light?

The Luceco Solar Brick PIR Wall Light is designed to enhance your outdoor space. Installation is easy with just two screws, no wiring required. With an IP65 weatherproof rating and PIR motion sensor with two modes, it can illuminate driveways at night or brighten up hard-to-see areas in your garden.

Do I need to wire a solar panel?

No Mains wiring Needed so save electricity and cut your electricity bills
Main Features: Solar Charging
Design: Adopted poly-crystalline silicon solar panel, and the photoelectric conversion rate up to 90 percent
Easy Installation: No wiring required, just mount the light on the wall that can get enough sunlight

How do nodfens solar lights work?

Nodfens solar lights has 3 modes to meet your different needs: (1) Full bright light when motion is detected, otherwise 30% bright light. (2) No motion light off, full bright light when motion is detected. (3) Always lighting 30% bright light at night without induction function. Up to 120°; wide sensing angle and 5 meters sensing distance.

How does a solar panel work?

Save Electricity Cost: No electricity bill to pay and no installation cost
Auto-recharging: Built-in day and night sensor. In the daytime, when there is the sunshine, the solar panel can convert the solar energy to electric energy and store it in the battery. At dusk, it will light up when the people appear.
