Batteries for Cars with Electrical Engine. Every car needs a 12V-battery. Yes, also cars with an electrical engine. Functions like the locking system only work with a low voltage battery. But ...

In "Mass Lead Intoxication from Informal Used Lead Acid Battery Recycling in Dakar, Senegal," Haeffliger et al. (2009) described a problem throughout the developing world that is both tragic and only now beginning to be understood with respect to its extent and effect. Eighteen children (and more since) died from acute lead poisoning in late 2008 in Dakar.

Wholesale Lead-Acid Battery for PV systems Invented in 1859 by French physicist Gaston Planté, the lead-acid battery is the earliest type of rechargeable battery. In the charged state, the chemical energy of the lead-acid battery is stored in the potential difference between the pure lead on the negative side and the PbO₂ on the positive side, plus the aqueous sulphuric acid. The ...

Europe PMC is an archive of life sciences journal literature. Background and objectives Between November 2007 and March 2008, 18 children died from a rapidly progressive central nervous system disease of unexplained origin in a community involved in the recycling of used lead-acid batteries (ULAB) in the suburbs of Dakar, Senegal.
