This powers the villa or charges the 5kWh battery. The 5kVA inverter is important because it changes the solar power into the kind of power that the house needs. It also connects the villa to the grid, but it can also work without the grid in case of power cuts. The solar system was installed after a site assessment.

There"s 2 settings. One just does photo or there"s a video mode with a option called &quot;photo first&quot;.

## **Which outdoor solar power supply is recommended for villas**

Whenever motion is detected it will take a photo, send it to me, and then record a 10-90 second video depending on my settings.
