

Wireless solar power supply for home indoor

What is WiFi home weather station?

[WiFi Home Weather Station]: Allows you to monitor the weather conditions of your home and garden on your cell phone(iOS &Android) via our free WSView Plus or Ecowitt app (within your home network) and Ecowitt weather server (remote monitoring); the weather station includes WS69 outdoor weather station unit and indoor gateway GW1100 (3 in 1).

Does the Weather Underground have Wi-Fi?

With Wi-Fi internet connectivity,the weather station can wirelessly transmit data to the Weather Underground. This means you can view your data on the Weather Underground website and share data with other weather enthusiasts. The display can either be freestanding or wall mounted and it can be powered via mains or batteries.

How much power does a solar panel provide?

Made of single crystalline silicon solar cells,the Solar Panel delivers up to 6.18 Wof power. It will max out on sunny days to make sure the battery camera has enough power to operate all day and night. Weatherproof design. Featuring a durable frame and stainless steel screws,the solar panel easily withstands rain,dust,snow and sun.

How to install a solar panel on a security camera?

With an adjustable bracket that rotates 360 degrees and a 4-meter-long cable,the Solar Panel offers incredible flexibility. Mount your security camera where you need it,then find a sunny spot to install the solar panel. With 4 meters (13 feet) of cable,you will get the flexibility you need for great security and continual power.
