The concentration of airborne and blood lead (Pb) was assessed in a Pb acid battery recycling plant and in a Pb acid battery manufacturing plant in Kenya. In the recycling plant, full-shift area samples taken across 5 days in several production sections showed a mean value ± standard deviation (SD) ...

In our Zine Workshop, we focus on this life and afterlife: it's about creating a zine on one hand, and rethinking the project within the specific context of the zine medium on the other. We work closely with participants on producing a zine from their own photo projects, emphasizing project analysis, editing, sequencing, design, and the importance of materials.

PDF | On Jan 1, 2019, ?? ? published Production Workshop Layout Design of Company A Based on SLP Method | Find, read and cite all the research you need on ResearchGate Article PDF Available
